

**Ref: Endorsement of Marko Stainless Products for the NSW BER Program**

18 November, 2010

**Bob Marko**  
Manager,  
Marko Stainless Products Pty Ltd  
1/12 Pennant Street  
CARDIFF, NSW 2285

**To whom it may concern:**

Marko Stainless Products Pty Ltd has been one of the approved suppliers to the NSW Department of Commerce (now Department of Services, Technology & Administration), for the NSW Department of Education and Training (DET) - School building projects, for many years.

Marko Stainless Products have satisfactorily manufactured and supplied a wide range of DET approved items such as: wash and drinking troughs, Practical Activities troughs, urinals, clay arrestors and stainless steel benching systems.

These products have all been compliant with DET requirements and have been supplied to NSW schools as per Departmental drawings and specifications.

Marko Stainless Products have designed and developed a '**Wash/Drinking Trough**' in conjunction with specific DET requirements. This item is referred to specifically in the Schools Facilities Standards - Specification Standard section '**SS 811 Sanitary Fixtures - Hydraulic**'.

NSW Public Works endorses **Marko Stainless Products Pty Ltd** as a manufacturer and supplier of Stainless Steel products to NSW Department of Education and Training (DET) - School building projects, including all current NSW 'Building the Education Revolution' (BER) Schools building program.

Yours sincerely,

 18/11/2010 .
