Solid Plate

Stainless Steel Benchtops | Custom Made

Illustrative Plain Benchtop. Images Are For Visual Reference Only; Actual Products And Selected Options May Vary.

Construction And Finish

Construction	Solid stainless steel plate with an exposed plate edge.
Material	304 stainless steel; 316 stainless steel also available.
Finish	Brushed #4 or orbital.
Sizing	Custom length, width and layout to suit your project.
Thickness	4-10 mm plate options; 6 mm commonly specified.

Options To Discuss

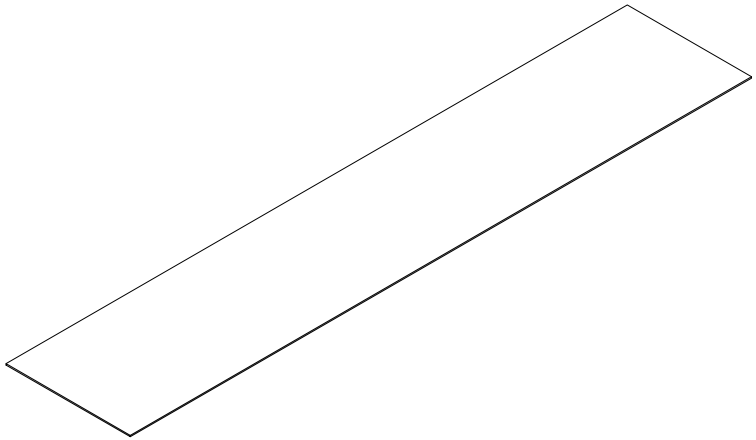

Single or double bowls, splashbacks, edge profiles, tap holes and equipment cut-outs can be arranged to suit your layout. We normally use square bowls with R25 internal corners; selected bowl options have approximately R15 corners. Confirm the exact bowl model and radius with us. Waste fittings are not normally included unless quoted.

Have a design in mind? Our benchtops are custom made to accommodate almost any layout. Contact us directly with your drawings so we can work through sizes, bowl positions and fabrication details.

Use This Sheet For Enquiry And Product Selection

Confirm all dimensions, support details and service positions on the project drawing before fabrication. The schematic below defines the measurement terms only.

Front Edge / Customer Viewing Side

Plan Schematic - Not To Scale. Dimensions To Be Confirmed In mm.

Your Benchtop Selection

Size (mm)	L: _____ W: _____ Quantity: _____
Grade / Finish	304 / 316 | Brushed #4 / Orbital
Edge / Splashback	Profile: _____ Height / Location: _____
Bowls / Cut-Outs	Model, quantity and coordinates: _____
Supports / Site	Joinery / frame / support layout: _____

Before Ordering

Send your site or joinery drawing, bowl model and appliance details. Mark each bowl and hole position from a clear datum and leave enough deck space for the chosen tapware. Confirm the finished edge, splashback and supports with us. Waste fittings are not normally supplied unless included in your quotation.
