Laboratory Bowls

Need a bowl to fit your bench layout? Send us the opening, required depth and mounting details. We can discuss a custom size and coordinate the flange and waste position with your project.

Design: Radiused corners and a central outlet to suit a 50 mm waste.

Sizing: Length, width and depth specified for your project.

Material: 304 or 316 stainless steel available.

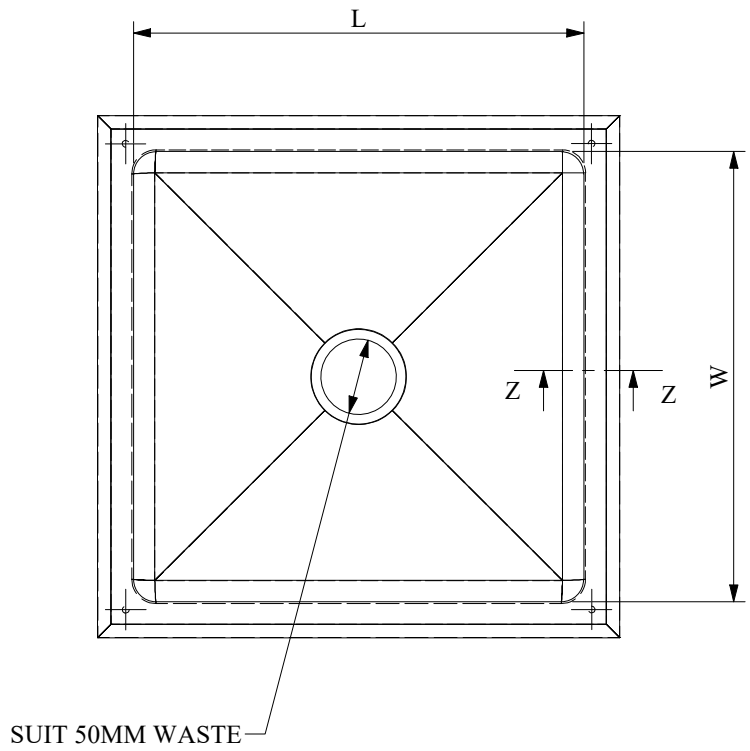

Selection: Confirm flange, mounting, finish and waste supply with your quotation.

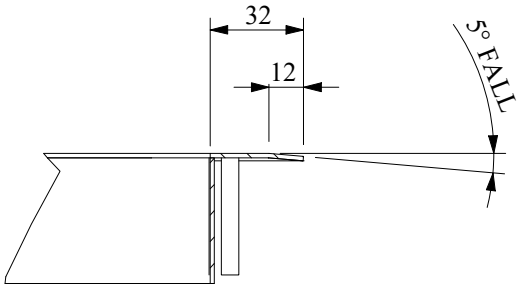

Tell us which substances the bowl will be exposed to so material suitability can be checked for your application. Refer to the project drawing for final dimensions and mounting details.

Images are for visual reference only. Actual products and selected options may vary. Contact us for custom requirements.

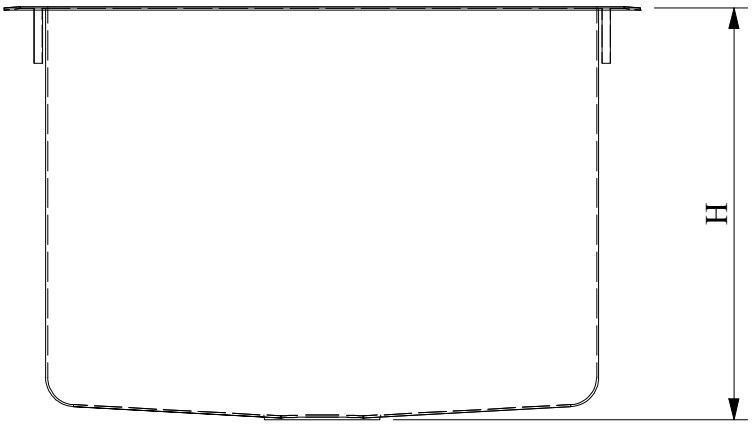

Laboratory Bowl A3 - Reference Views

All dimensions in mm. NOT TO SCALE - use stated dimensions.
Reference configuration only; confirm the selected project drawing before manufacture.
